Joann Gadbaw SOLAR member and weekend hiker

Come LUGE

At the most publicly accessible luge track in North America! You can go up to 30 MPH! Muskegon State Park Inter

Sports Complex offers many activities, but the most exciting is

definitely the LUGE run. You can work your way up to going 30 mph on the first day and possibly 40 mph on the second day. If speed isn't your thing they also have X-Country Skiing and Ice Skating. If the mini cabins are available we will stay there in the park Friday and Saturday nights. If the cabins aren't available we will stay in town at an inexpensive hotel. The cost is as follows: \$30/day for Luge; \$8/day for X Country Skiing; \$2/day for Ice Skating; \$4 State Park daily pass or \$20 Annual; \$40 Super Daily Pass (includes ski and skate rental); \$10/Night for cabins; \$10-20/night for hotel. The dates are Feb. 28th to Mar. 2nd.

You can contact me (David Foerster) at 586-497-9800 or e-mail me at dbfoerster@ameritech.net.

The Did you know...

Scientists have discovered that when forests become old and overcrowded, trees begin to use more oxygen than they produce. Young well managed forests tend to be the most efficient at absorbing carbon at the rate 15.6 pounds per cubic foot of tree growth.

- This tid-bit from - AF & PA, U.S.

Enjoy Michigan Winters BACKPACKING

Winter backpacking skill is not just for the winter, it is a useful back-up for the unexpected cold days in early spring and late fall. In this class we'll teach you how to keep warm & your energy level up when skiing or snow shoeing in the winter & how to build a snow shelter just in case something does go HORRIBLY WRONG on that simple 3 hr. ski trip. You can also use these skills in the summer on glaciers and snowy peaks in the Rockies, the Cascades, Alaska, or Kilimanjaro.

This class will teach you the "ins and outs" of winter camping in Michigan. The first classes will be held on 12-11 & 12-18 and all

other classes and practicals will be held in January & the beginning of February. The cost is \$100 for new students and reduced fee for past graduates who want to retake the course. Pick up details at the monthly meeting.

This course is open to the graduates of the Backpacking Course, graduates of non-SCLAR backpacking courses may be admitted by special permission only. This course is the prerequisite for the Winter Survival Course. For safety reasons, the Wilderness First Aid Course is highly recommended for both of these courses. With the recent warm winters keep your fingers crossed & pray for snow.

To sign up or if you have any questions contact
TCM OLOFFO.
(313)-386-0057 or
mcmountainman@yahoo.com

Ski Class student practice snow plowing down hill.

Winter Survival Class.

It's here. The class you've been begging for. The class that will leave you better prepared for any winter emergency that may save your life.

We will be learning and practicing basic survival skills, survival gear, map reading, planning, and several other related topics. This will be an intense primer for those wishing a larger comfort margin in the field.

We need to have the class filled and held at the January meeting. It is all those who have been asking about the class. **Get your pens in gear and sign up!** The sign up sheet is looking very sparse.

Class will start immediately following the Enjoying Michigan Winters class in February.

I will run 5 consecutive weeks on Thursdays with 1 We will have one Saturday or Sunday practical as well as 1 weekend practical. The class will be \$100. Sign ups will be at the December and January meetings. But wait! There's more! The prerequisites are, passing winter backpacking, first aid certification, and I strongly suggest wilderness first aid.

Class minimum size 16, maximum 24. Tell your friends.

Class Dates Feb: 6,13,20,27, Mar. 6

Practical Dates: Feb 22, Mar 7-9

Come have fun with me. Douglas Lanyk
(248) 634-4551 or dslanyk@earthlink.net

Class Ski Instructor Gene Cordova, what a fashion statement

SOLAR Receives MRPA Community Service Award

On Wednesday, January 8, 2003, the SOLAR Club was honored by the Michigan Recreation and Park Association, when we were presented with the "MRPA Community Service Award". This past August, SOLAR was given the opportunity to assist Oakland County Parks and Recreation with their "Wild Adventures Day Camp".

Ms. Katie Stavale and Ms. Leah Howard, both in the Mobile Recreation Department of Oakland County Parks, attended some of our meetings and asked for our support. Both of these ladies became SOLAR members last year. Ms. Derenda Howard, Recreation Specialist was in charge of putting together and running the "Wild Adventures Day Camp".

The Wild Adventures Daily Schedule describes the curriculum as follows, "promotes outdoor recreation while focusing on outdoor safety and the development of teamwork and communication skills." "The importance of a healthy environment, including conservation, is emphasized throughout the camp." The target age range for this camp was 8-13 and it took place in Independence Oaks and Addison Oaks County Parks.

The daily sessions incorporated such topics as "Go Fish", which included fishing, bamboo rod building, boating and swimming; "Wildlife Watch", which included journal writing, Nature Center tour and trek, pond exploration, capture the flag and swimming; "Wilderness Survival", with first aid, helpful/hurtful plants, hiking/trekking, survival game and swimming, "Field Trip", and "Under the Stars" with activities such as star lab, archeological dig, campfire safety/campfire building, dinner over an open fire, obstacle course and star gazing.

Mike Malone did a nice job teaching the "first aid/orienteering" section. Mike presented each "camper" with a compass and whistle, which the kids put to good use during their orienteering practice. Dave Holt was instrumental in putting together a stargazing program, along with the Oakland Astronomy Club. My wife, Leslie, helped me put together the sections on hiking/safety and campfire building/safety.

Getting involved in the "Oakland County Wild Adventures Day Camp" was fun and fulfilling. It is a great and wonderful way to help instill an appreciation for the outdoors in these very appreciative kids! When the call comes out for volunteers, this year, I hope many of you will donate your time and experience to help with this extremely worthwhile program. Oakland County Parks will be expanding the Wild Adventures Day Camp this year.

With funding being cut back by state government, our parks really need our support!

We would like to extend our appreciation to Ms. Katie Stavale, Ms. Leah Howard and a very special thank you to Ms. Derenda Howard for nominating SOLAR for this prestigious award. The award ceremony was held, in Lansing, at the new Michigan Historical Museum and Library complex. The MRPA hosted an hors d'oeuvres reception and the Historical Museum was opened up to the award winners, at no charge. We had the entire place to ourselves!

Thanks, again, Michigan Recreation and Park Association and Oakland County Parks. You really made us feel special!

--- Gene Cordova

Rafting on the New River of West Virginia: 'ICE BREAKER'

This is a short article to let everyone know that I will be leading a white water rafting trip during the weekend of April 4th, 5th and 6th. This weekend is entitled 'ICE BREAKER' by the rafting outfitters for good reason. The water is cold, it may be snowing and it is the official beginning of the 2003 rafting season. QUESTION: Why would any sane person want to raft this early in the year? ANSWER: No reason, because of course no sane person* would want to go on this rafting trip. This

message is not for the sane rafter*. This trip is meant for anyone who wants to raft on this planet's second oldest river during flood stage with people whose frozen smiles hide the inner warmth of adrenaline that has more mass than any grey matter you may find inside them. This trip is not meant for anyone that puts personal comfort ahead of team effort. This trip is not meant for anyone that doesn't embrace the cold. This trip is not meant for anyone doesn't respect the ways of

a wild river. This trip is not meant for anyone that doesn't want the ride of their life!

The cost of this trip will be \$100 or less. It will include rafting, taxes, tips, 2 nights camping, a barbeque and "open keg" on Saturday night. Wet suits are advised and may be rented from the outfitter.

Did I mention that this trip is not kid-friendly? Contact Mike Banks at slwolle52@yahoo.com or see me at the February and March meetings.

The first paid will be

guaranteed a spot.

QUESTION: How many people really want to go on such a trip?

ANSWER: How many people of questionable sanity do we have in SOLAR?

SOLAR Backpacking Course - Spring 2003

You joined SOLAR to begin a lifetime of wilderness adventure. Right? However, you have to admit you don't know everything there is to know about wilderness travel. Who does? Where do you start on the path to enlightenment? One answer is the SOLAR Beginning Backpacking course.

Beginning Backpacking is designed for you to learn how to travel through the woods with the confidence that you have the basic knowledge and skills to do it safely. Will it teach you everything you will ever need to know? Heck no! It will however, give you the foundation to build ever-increasing skills and knowledge if you should so choose. It may also teach you that life in the woods is not for you, but at least you'll be richer for the experience of having tried it**.

Who is Beginning Backpacking for?

1. Anyone that hopes to take many of the other courses in SOLAR e.g. Wilderness Canoeing, Enjoying Michigan Winters, Advanced Backpacking & Leadership, etcetera.
2. Anyone who wants to increase his or her 'comfort zone' in the outdoors.
3. Anyone who wants to take a short cut to meeting many other SOLAR members, both new and old.
4. Anyone who wants to learn new techniques, gear and philosophy*** for traveling through the wilderness.
5. Anyone who needs one more excuse to spend more time talking about backpacking and more weekends doing it****.

What can you get out of this course?

1. Equipment needs, selection and use.
2. Basic land navigation skills.
3. Trip planning skills.
4. Environmental sensitivity.
5. Snoring sensitivity
6. Critter avoidance.
7. Good times.
8. Friends.
9. A better understanding of yourself.
10. Something that I haven't written down here.

When does this course take place?

The class meets for 5 Thursday evenings in a row. The dates are March 27th and April 3rd, 10th, 17th, and 24th. The weekend practicals are April 12th & 13th and May 2nd, 3rd and 4th. The first weekend is compulsory!

Where does the course take place?

Thursday night classes take place at The Benchmark in the city of Farmington. Practical #1 will be in Pinckney State Recreation Area. Practical #2 is scheduled for the Hoist Lakes area of the Huron National Forest.

WARNING: All students must be current members of SOLAR.

WARNING: Space is limited.

WARNING: All students must be registered in advance.

WARNING: Registration is available at the February and March meetings.

WARNING: The cost of this course is \$100 U.S. Make your checks payable to 'SOLAR'.

QUESTIONS? Contact Michael Banks at slywolfe52@yahoo.com.

* Politically corrected for a 'G' rating.

** Politically corrected for overly sensitive wimps. Not that there is anything wrong with being overly sensitive or wimpish.

*** No knowledge of ancient Greeks wearing togas, ancient Indians wearing togas, ancient Chinese wearing togas or Harvard professors wearing togas is essential to this course. However, seeing 'Animal House' several times will help you better relate to your instructors.

**** What did you think was motivating your instructors?

LONDON TRIP

I am organizing a trip to England the last two weeks of June. We will be staying three days in London then spending some time going to Stonehenge, Avebury Circle, Bath, and Bristol.

Planning a walk in the Cotswolds or the Brecon Beacons. Probably a hike called the three castle walk. We will be staying in youth hostels for the first part of the trip and the rest will be in a cottage that I can rent from the London Mountaineering Club.

This is not a back packing trip just day packs required. There is plenty to do around the cottage, mountain walking and rock climbing right outside the door. There are several castles in the neighborhood and the North Atlantic beach is not far away. It could be the Irish sea come to think about it.

There is a lot of biking around and bikes can be rented. If anyone is interested there are climbing classes up to what ever level you aspire to, also white water and sea kayaking classes guaranteed to get you rolling. Equipment for all can be rented.

I took peoples names and email at the meeting and sent out invitations to join the Fronwydar web site as of now only one person has replied. This is how I am going to put this trip together so if you plan on going you really should reply. I have already sent out some messages. This trip will be limited to 12 people because of the cottage sleeping capacity. I estimate the cost at \$1550 including air fare but not food.

petekandu@yahoo.com

A reminder from your Membership Chairman

Starting March the Ray will only be mailed out to 2003 members. Feb. will be the last Ray unless you pay your 2003 dues (except Lifetime members who signed the application form in 2002-03). Forms are available in this edition of the Ray, the SOLAR website (www.solaroutdoors.org), or at the membership meeting. If you are unable to make the membership meeting just mail the application to me at the address on the bottom of the application along with your check or money order. Trip leaders and head instructors will be verifying your membership status for all SOLAR classes and SOLAR sponsored activities.

-- Mary Price, Membership Chairman

SOLAR Cross Country Ski Class

SOLAR held its Cross Country Ski Class on Saturday, January 11th. This year's class was held at Cross Country Ski Headquarters, in Roscommon, MI. Twenty-three students made the 2 1/2 hour journey north, in order to find the only skiable snow, in the state, on which we could teach cross country. These hearty folks were undeterred by rumors of poor ski conditions and were treated to nicely groomed snow, on which to learn.

We divided into 2 groups: beginners and intermediate level skiers. Cindy helped us with the beginner class and Jim Bradley gave the intermediate class many pointers on how to improve their technique. Many in this class had never even been on a pair of skis, yet they were soon geared up and ready to go, go, gooooo...oh no! Oops; I hate it when that happens! One of the first things they had to learn was how to fall properly and get back up.

Soon, the students were double poling, gliding along the trail, snowplowing down the hills and step turning around the corners. I admired the determination of so many of the students who tried different skills over and over, until they got them right. After the classical lessons, several students traded out their classic skis for skating skis (freestyle), and took a skating lesson. I hope they don't regret it too much!

I was proud of each and every student, but I would have to give the award for most determined to Essie Kwan. Essie is a very beginning skier whose dogged determination had her out on the hill, practicing her snowplow, after class, for several hours by herself. The next day she skied with more advanced skiers at Hartwick Pines State Park, and kept up with us. She even skied the entire 12 kilometer Weary Legs Trail, bigger hills and all. Not many beginning skiers would have made it!

The following students made up this year's graduating class:

Essie Kwan	Tom Hayes	Reggie Hayes	Erin Hill	Linda Hunt
Gale Govarere	Katie Bowser	Susan Najar	Jonnie Kostishak	Janet Schester
Sarah McCoy	Harry Price	Mary Price	Kristine Hahn	Coral Hahn
Lori Yungkans	Barb Clark	Patti Krohl	Nancy Trudeau	Jennifer Couch
Dori Middleton	Maria Edwards	Darrell Ahlberg		

Congratulations class! You did a great job! I will be handing out your class certificates at the February meeting, so please try to be there.

SOLAR Annual Photo Contest

The 2003 SOLAR Photo Contest was a hit! Over 50 entries in 7 categories by 15 club members made the voting tougher than usual. This year we added a Black & White category and changed the way the Best Overall photo was chosen. In the past, Best Overall was based on the photo with the most votes, which for categories with few photos slanted the odds in their favor. This year members voted on the photo they thought was the best overall, regardless of category, and it was a close competition. Ribbons, compliments of Reggie Hayes' handy work, were awarded in all categories while first place winners received a \$15 gift certificate and the Best Overall winner received a \$30 gift certificate to REI. Winners are listed below.

A special thank you to Denise Kordie and Gloria Fontaine for their help with balloting and Tom Hayes, Larry Mercentine, and Pat Morad for their help with the awards. Thank you to all participants and congratulations to the winners!!

Scenery- 12 entries

- 1st Place- Pete Lamb
- 2nd Place- Tom Ponsart
