Winter's Finest

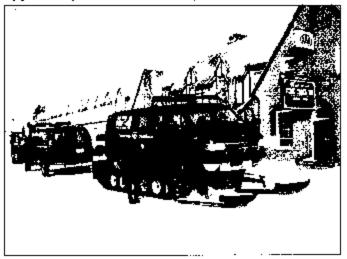

by Mary Dunn

Where can you find snow and steam? Feasting and scarcity? Howling and silence? The answer is Yellowstone National Park in Tebruary.

fire and fee

Nine SOLARites were greeted by Yellowstone Expeditions guides in the fown of W. Yellowstone. Vans mounted on skis and tracks provided comfy travel over five feet of snow. There was plenty of opportunity to view Norris Geyser Basin with its

Strong Coach

Yurt Crew

steam vents and wildlife, such as bison, elk, eagles, and trumpeter swans along the way to camp.

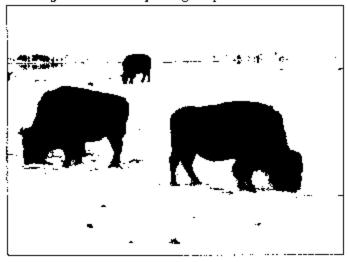

Yes—camp. A five star yurt camp. We stayed cozy despite low temperatures of 20 to 40° Fahrenheit. Each yurt slept two and was equipped with a propane heater, thick sleeping bags, and pillows. The insulated plywood floor and walls were topped by canvas and plastic sheeting. The heated shower and outhouses were welcome additions. Aches and pains were soothed in a sauna too. This is not your typical winter camp. Two larger yurts were used for cooking

Winter's Finest (cont'd)

and dining. This was the place for feasting. Big, hearty breakfasts and scrumptions dinners were served up caily.

The wonderful meals were a contrast to the scarcity of food for Yellowstone's year-round residents. Bison, coyote, and wolves search for food to get through the long winter. It was amazing to see these creatures in their natural setting. Bison sometimes surprised us along the ski trails. A lone coyote kept its distance as we traveled up a snow covered valley. The "National Geographic" moment though was watching a pack of five wolves relaxing on a hillside. We took turns viewing them with a spotting scope and binoculars.

Grazing Buffalo

The wolves gradually roused and began to howl. The wintry silence was broken. Such a rare opportunity!

All this took place in a wonderland of snow which invited us to ski. Affable and patient guides broke

Madison River Overlook

trail across meadows and through forests of pine, spruce, and fit. Skiing at 7000-9000 feet presented a challenge for us flat-landers. But, what rewards! We visited back-country thermal areas, viewed the canyon and water falls of the Yellowstone River, and enjoyed vistas of meandering creeks and mountain ridges. A dream come true! We also got some telemark ski tips and sometimes crashed in the deep show, like landing in a huge feather bed. Falling was FUN. Getting back up was WORK.

The Vastness of Yellowstone

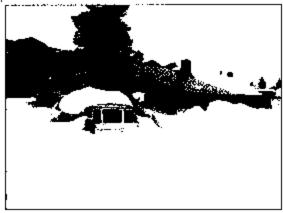

All this adventure and beauty will be there next winter for you to enjoy too. Pete Lamb, Joann Gadbaw, Ted Kosik, Chuck Svalya, Eric Gardner, Cindy Taylor, Carolyn Frances, Brian Nordhaus and I will all be glad to share our experiences with you. All of us travelers owe a big thank you to Pete for organizing this trip to one of winter's finest locales. Thank you, Pete.

Heyden Valley Picnic

Winter's Finest (cont'd)

And in case you are wondering, the legend of SOLAR Chapstick retrieved from the outhouse lives on in Yellowstone in addition to our club. Way to go, Rob!

Dung, Where's my shovel?

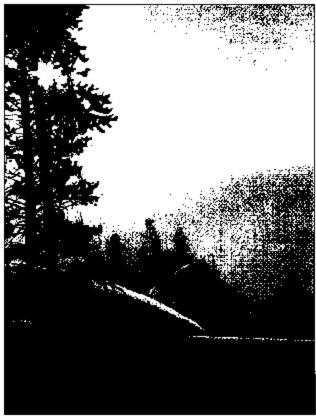

Pete says that he will run another trip next year if he can get sufficient interest from at least ten people who will go on a winte: Yellowstone trip. He will be taking up interest lists in the near future.

I'm a Jolly Lumberjack, and I'm OK

Yellowstone Falls

Early Morning in the Canyon

Dog Sledding 2006... PERFECT!

by Karm Bates

There is only one way to sum up the Chocpaw 2006 mushing trip this year... PERFECT! The wooded landscape was draped in snow, not to mention the two to three feet of snow that covered the ground. Being SOLAR members with the "Jet's do it" attitude, we were lucky enough to help our guide break a few miles of trail covered with all that fresh snow.

Craig Creek

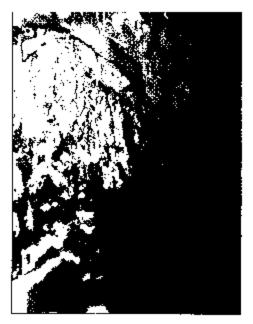

The temperatures were also PERFECT... 20 F and sunny, not a cloud in the crisp blue sky.

This year's group of ten people meshed like old friends. We arrived in camp, and the group worked together like old pros. You would never know it was the first time for some. The guides even joked that they were going home because they didn't feel needed.

Chris Lee

Speaking of old friends... the dogs were working just as hard and having just as much fun as the mushers they were pulling. It still amazes me after

Snowy Trail

many years of dog sledding the strength and endurance of the dog teams.

Hoteling Dog

I have to thank Crissy Spafford and Dave Komerska for the memories of being a beginner. It was great to see them having so much fun. Even when they both fell off the sled backwards... at the same time. If you can't understand how this equals "FUN," join me next Tebruary 2007! Words can't describe...

Adventures of the 1st Annual Outhouse Race Team in Caseville, MI.

by Penni Lopez

What can I say? When I first heard about Outhouse racing from the all famous John Loose about this time last year, I was instantly intrigued. John does the videography for the Trengary, Michigan Outhouse race every year. After looking at the website he directed me to, I was hooked. I knew I wanted to race my way to toilet paper heaven! Crazy you say? Ha! Crazy like a fox with \$200 of winnings and a signed roll of toilet paper from the Caseville Chamber of Commerce was at stake!

So, starting in July of '05 an assembly of SOLARITES was put together with like minds of doing the ridiculous. For 8 months we planned out and executed our Outhouse to be. We came up with many different names, but settled on the name of "The SOLAR Folar One Holer" for our racing cr_p house. Our minds then turned to envisioning the "One Holer," and we came up with Santa's sleigh (on skis) holding our outhouse inside of it as a gift to be delivered (never used of course. I think...Hey! We just wouldn't doop that!).

Skip to February 17 - 19, 2006. Wouldn't you know it; the winter was a mild one—EXCEPT FOR THAT WEEKEND! With temps in the single digits and a mighty windchill around - 15, we, the Outhouse Race team, made for Caseville, Michigan. At this point, I'm thinking...."you and your big mouth Lopez!" I'm a fair weathered winter bird, and frozen rase liquid just doesn't do it for me!

Everyone made it up to Caseville in one piece, not an easy feat due to the roads being covered with black ice much of the way. I for one was lucky, as I had Tom Oloffo guiding me and saying "Hey Lopez, let's get points and slide into that State Trooper!." "No thank you Tom, I think I'm taking a liking to the trees, and those 6 ft. gulley drops on the sides there!" Needless to say, we all ran for Herschell's party lounge soon after getting there!

I could go on about our first interesting night in the hotel room with NO heat and NO phone, but I'm still trying to pull Karl's cold toes out of my hair, enough said. Karl, I promised I wouldn't say anything, and a promise is a promise.

OK. Race day! We were luckily blessed with a morning full of face warming sunshine. We ate breakfast and then literally SCRAMBLED to get our outhouse put together before start time. Upon arrival at the city park, I expected to see a slew of race contenders, but only saw 6 or 7. As it turns out, Caseville usually has 25-30 entries, and the race is completed in heat style. Due to the cold temps, many did not show up, and that left us with only one race to run. Our team made its way onto the ice covered canal and took its place next to the other contenders. Our two pushers, Dave and Karl, denned their reindeer antiers and blinking nose straps (they looked way cool) with a grace that Santa would have been so proud of!

Pushers Dave and Karl

The tension was high as the race was to begin. "Or. your marks!" the efficial called out. "Go!" All the teams started running down the canal path as if their last breaths counted on this win, (or they'd waited so long, they really did have to use an outhouse!). Ok, this is where it gets reallilly exciting. As the teams neared the turnaround point, it seemed everyone was sliding here and there, trying to stop and turn, with the exception of OUR team. Dave and Karl had a plan (ha! that's basic backpacking taking over there!). Dave stopped cold in his tracks, and Karl pivoted around him. With that, they then dug their toes in and ran back to the linish line way ahead of everyone! Woooheooo! \$200 and a signed roll of toilet paper, here comes the SOLAR Polar One Holer! We promptly accepted our gifts and ran off to relebrate!

I must add to this story, the braveness (maybe craziness) of my one son, Ryan. He drove up to cheer our team on, and while there found out that the Polar Bear Dip

Adventures of the 1st Annual Outhouse Race Team in Caseville, Ml. (cont'd)

To the Finish Line

would be taking place after the race. Please note, he was nowhere near prepared for this stint, with towels and a change of clothing. But like his mother in her younger years, felt inclined to be different! So, he strips all of his clothing except for basketbal shorts, and does a cannonball worthy of an Olympic medal into an "unimaginably cold hole in the ice!" as he put it. All this exhilaration.....FOR A T-

SOLAR Outhouse Team

SHIRT!

Thanks goes out to all the Outhouse team members; Mark Bushor, Dave Komrska, Chrissy Spatford, Tom Olotto, Karl Overheul, Margaret Martin and Janet Schester.

I had a great time playing with you and look forward to another run on that canal ice!

Winter Survival 2006

by Doug Lanyck

SOLAR's Winter Survival Class of 2006 was a success. Nine students finished the class by going on a 4 hour. hike Friday evening and becoming lost With just the gear they would carry on a 4-hour hike, they survived and learned until their rescue on Sunday. Skills of fire starting, shelter building, teamwork, orienteering, and signaling were practiced. We also looked for food and had some primitive skills lessons. This year's students were well prepared and aggressive in their desire to survive comfortably. These are the people you want to go on trips with. They'll get you through.

Congratulations to the graduates: Team Stupendous, Michael Douglas, Scott Elliot, and Tim Davis; Team Awesome. Michael Pinewski, Ernie JR Brooks, Pam Schmelzer; and Team Incredible, Dave Sweeten, Mike Hobig, and Sharon Smelter.

Survival Class

SOLAR Program Schedule From the SOLAR Program Director

Linda Rodrick

APRIL PROGRAM: "Discovering the Underwater World"

By: Mike Wrubel of Advanced Aquatics

Join Mike for an entertaining slide presentation that explores the underwater world from the perspective of a fish. No other environment approaches the abundance, diversity and vibrancy of a pristine coral reef. Underwater more different species are visible in ten minutes than in ten hours of observation in the most unspoiled wilderness above water. You'll discover that even a seemingly empty, sterile lake or flooded quarry actually teem with life. This presentation will serve as a reminder that nature's imagination exceeds ours!

Please note: All programs take place at Colony Hall immediately following the SOLAR business incetting.

UPCOMING SOLAR PROGRAMS

May Program: Annual SOLAR Steering Committee Elections and Photography Contest

This is your chance to make a difference. On May 2nd, 2006, SOLAR will be holding its annual Steering Committee elections. By running for one of the 4-Officer positions or 10-Committee positions, or just by participating in the voting process, you can have a say in which direction SOLAR is heading. All currently paid members are eligible to run and vote. No experience is necessary—just a willinguess to make SOLAR the best outdoor club it can be!

For the past 30 years, SOLAR has strived to be a successful organization, school and all around fun place to be. Each of you has an important part in our success.

In addition to the monthly membership meetings, the Steering Committee holds a club business meeting the last Tuesday of each month in which all committee members are encouraged to attend. As SOLAR is a volunteer organization, all Steering Committee members give their personal time to participate in a larger way for the good of the club.

All positions are considered open until voting concludes on May 2nd, 2006

The Steering Committee is comprised of the following positions:

President (Officer) - Oversees monthly meetings, fields member questions and concerns

Vice President (Officer) – Assists president and steps in for him or her when necessary

Secretary (Officer) - Takes minutes at Steering Committee meetings and distributes

Treasure (Officer) - Manages club finances, bank account and reimburses members

Education (Committee) - Oversees all classes and provides direction to lead instructors

Membership (Committee) - Manages membership lists, collects dues and oversees liability release forms

Activities (Committee) - Collects, posts and announces monthly activities

Programs (Committee) – Organizes all monthly programs held at membership meetings

Public Relations (Committee) – Promotes club at local events, in media and organizes members for participation in grassroots event (i.e. National Trails Days)

SOLAR Ray Editor (Committee) - Collects articles, edits, organizes, formats, lays out, and prints newsletter

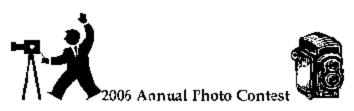

Equipment (Committee)—Stores, organizes, distributes, and collects SOLAR rental equipment Historian (Committee)—Collects and stores information about the club

By-Laws (Committee) - Oversees club by-laws and changes

Web Master (Committee) - Manages, maintains, updates, and hosts club website

If you are interested in running for a position or have any questions, please contact me. You must submit your name and the position to Linda Rodrick at <u>lindamra@aol.com</u> or call (248) 673-1842 by April 8th, 2006 to have your name listed in the May SOLAR Ray.

The final deadline to submit your name in advance of the May meeting is April 29, 2006. After April 29th, you can select to be a write-in candidate. All candidates will have an opportunity to introduce themselves before elections take place on May 2nd

It's that time of year again when all of you amateur photographers can brag about your trips and show off your stuff. So dig out those photos from year 2005 and enter them into this year's phone contest.

Categories

Scenery Digitally Enhanced Scenery
 Animals Digitally Enhanced Other
 Plants Non-SOLAR Scenery

Humor Non-SQLAR Plants and Animals

Humor Non-SOLAR People

Black & White Best Overall Photo-Pro

Category Explanations

Digitally enhanced: If you alter your photo in any way on your computer or splice several photos together, you can only enter them in the "digitally enhanced" category. Cropping is the only exception. Digitally enhanced photos may be entered in the "scenery" or "other" category.

<u>Photo-Pro</u>: Photos in this category wor't be eligible for the "Grant Prize." This category is meant to encourage full creativity for the more advanced photographers, while not having others compete with them.

Official Rules

- You must be a SOLAR member to enter the photo contest.
- Photos must have been taken between January 1, 2005 and December 31, 2005.
- Standard photos must be no larger than 8x10 & panoramic no larger than 8x18.
- Photos must be matted with matt size no larger than 11x14 on standard photos and 11x21 on panoramic photos.
- Photos must have been taken by the person entering it.
- Photos must be taken at a SOLAR event unless entered in the non-SOLAR category.
- Only one photo entry per person per category and only ten entries per person overall are allowed. Prizes will be awarded to the first place winner in each category and to the overall Grand Prize winner.

Photos will be voted on by SOLAR members who attend the May meeting, and winners will be announced that evening.

Car Break-Ins and Kayak Losses

By Pele Lamb

A series of break-ins of cars left in parks around the metro area have been occurring recently. The cars broken into have been left at kayak launches and bike trailheads, so watch what you leave in your car when out paddling or peddling.

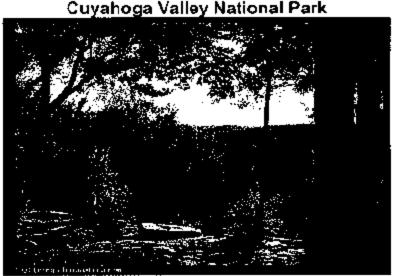

Another problem is kayaks on cars at restaurants and parking lots. Apparently some people find it amusing to either loosen the tie downs or partially out them. This has happened to several friends of mine at a variety of locations. Please check your tie-downs after you have left you boat on your car out of your sight. It's a bit of a gut twister to see your \$3000 kayak in the rear view mirror going through the windshield of the car behind you.

In the next issue, I will cover some guidelines for protecting your property.

Come join us for the 4th of July weekend. We are going to Cuyahoga Valley National Park for some hiking, biking, touring, and exploring. The park is located just South of Cleveland, so it's only about a 3-hour drive.

There are over 125 miles of hiking and biking trails. The main bike trail, Ohio & Erie Canal Towpath, runs through the Cuyahoga River Valley and is a 19.5 mile linear crushed stone trail. Other trails include the Bike and Hike Trail, which is a 16 mile linear asphalt trail. If you get tired from biking, you can bike one way and return by train. Or perhaps you would rather hike to see some waterfalls, gorges, or historic homesteads.

We will be staying at the Stanford Hostel, a restored 1830's farmhouse, within the National Park. The hostel is equipped with 30 beds in 8 rooms, 3 bathrooms, a fully

equipped kitchen, dining room, living room, outdoor picnic tables and fire pit.outdoor picnic tables and fire pit.

Cost of all this tun is \$90 for 4 nights lodging. Can't get the Monday off work to make it a 4 day weekend? No problem, cost for 2 nights is \$45. Depending on how many people sign up, we may have the Hostel to ourselves.

Sound like something interesting? Contact Leslie Cordova to sign up. lesliegenc@aol.com or (248) 547-5626

Backpacking South & North Manitou Island—Memorial Weekend, May 26–29, 2006

South Manitou Island is part of Sleeping Bear Dunes National Lakeshore. We will be hiking about 1.5 miles to the Bay Campground where I have 2 group campsites reserved for SOLAR. These sites are equipped with a fire ring, outhouse and water pump, but no picnic tables. You should be prepared to carry all of your gear in, as they do not allow any kind of wheeled device. Be advised that there is NO food service on the Island or any place to purchase supplies. Also, be prepared to hang your food from the killer CHIPMUNKS! A backpack stove is also a necessity, as well as a rain tarp in case of rain. Please try to double up in your tents as each site will only accommodate 10 tents and up to 20 people. (Trip is full.)

For the North Manitou Island Backpacking trip, contact Pam or Lou Szakal, parieh.1@ netscape.net.

Hiking on North Maniton Island

Classical Guitarist—Colin McAllister—April 19

Wed. Evening, 7:30-\$10 or \$5 — Students Huron Valley Council for the Arts 205 W. Livingston, Uighland Contact Wendy Willihnganz at 248-8889-8660 or 248-505-6323

Spring Beach Cleanup and Llama Hike

by Vida Ruggero

If you have ever enjoyed a beautiful day at Lake Michigan swimming, boating, fishing, camping or hixing, consider joining me for the annual spring beach cleanup. For a mere donation of 3 hours of your time Saturday morning, you can enjoy a serene weekend at one of Michigan's beautiful, undeveloped coastlines. (OK, maybe it wasn't serene last year with 50 mile an hour winds and sleet, but it was still fun!)

As many of you know, my family and Ladopted Nordhouse Wilderness Dunes through the Great Lake Alliance "Adopt-A-

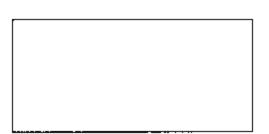

Beach" program a few years ago. Twice a year we open up "our beach" (haha) to SOLARites, friends and dogs to help us with this large undertaking. We will meet Saturday, April 29th at 9 a.m. at the day use beach parking lot. Come and enjoy the beach for a few hours, or spend the night in the rustic campground or backpacking area, your choice. This year, there will be an opportunity to hike with your very own llama at Llamas, etc. farm in Ludington on Sunday. Contact me a <u>raget@hotmail.com</u> or 810-923-3839.
